# Calling notice of the 101st JPEG meeting

The 101st JPEG meeting is organized online from 30 October to 3 November 2023. The time zones of main meetings (JPEG plenary, subgroups plenaries, meetings requiring input and opinion from many experts) are organized at time zones following guidelines from JTC1 Standing Document 19 and ISO/TMB as well as IEC/SMB Meeting Guidelines as communicated recently. All sessions are organized by rotating the time zones of plenary sessions while at the same time finding suitable times for all potential participants without favouring a time zone from the same region of the world in consecutive meetings.

All sessions are announced in advance to allow experts interested in participation to plan ahead. Information regarding each session includes the session name and date, time (in Coordinated Universal Time - UTC), duration, chair name, contact email, objectives/activities, input and output documents, agenda, and access instructions.

The document WG1N100540 contains a draft agenda and detailed schedule that provides schedule of all online meetings from 30 October to 3 November 2023. Updates to the schedule of the sessions are possible until the last Friday prior to the 101st JPEG meeting and during JPEG plenary sessions.
